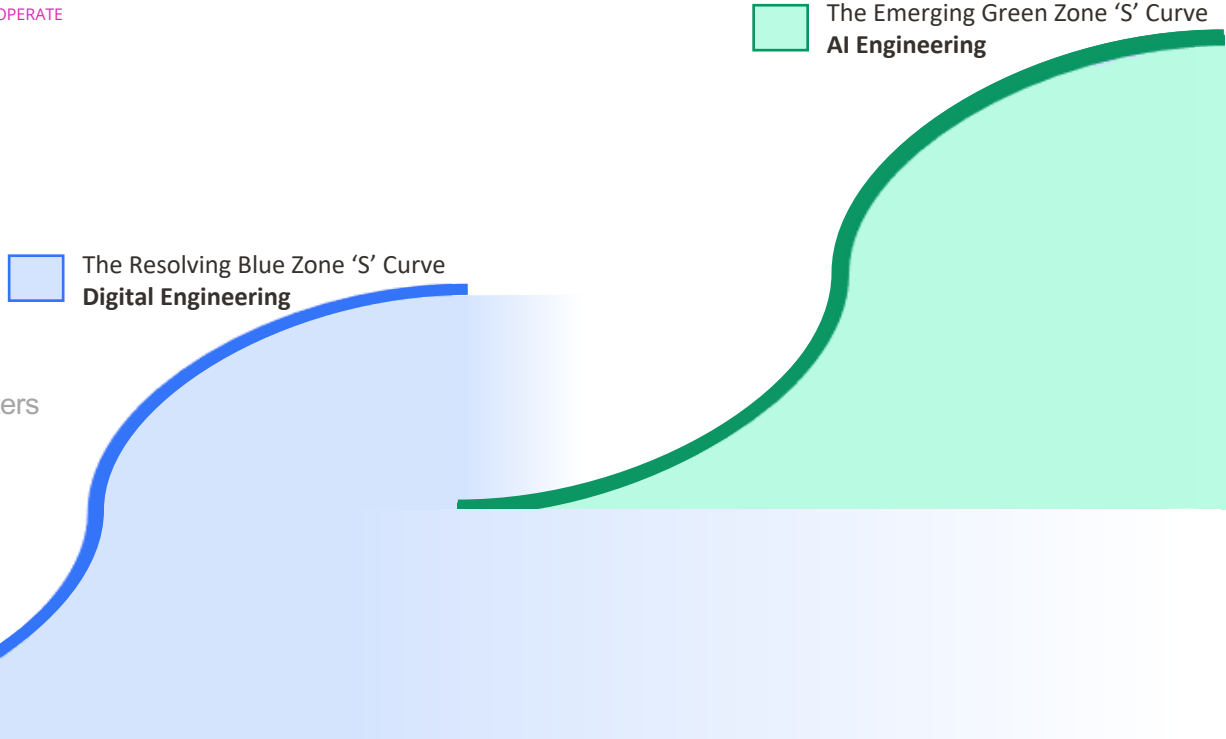
Helio

INNOVATE BUILD ENHANCE OPERATE

Illuminating the next generation of enterprise innovation.

There's a spark that's igniting the world through boundless innovation and endless discovery. The spark? Generative AI.



The tectonic shift to **AI-driven engineering** is ***imminent***, and the most innovative early adopters will separate themselves from the competition.

Virtusa Helio helps clients take the leap to Innovation at Scale.

PEGA

COLLABORATIVE, AI-INFUSED WORKFLOW DESIGN

Pega GenAI Blueprint

Optimize workflow design, fast, with the power of Pega GenAI™.

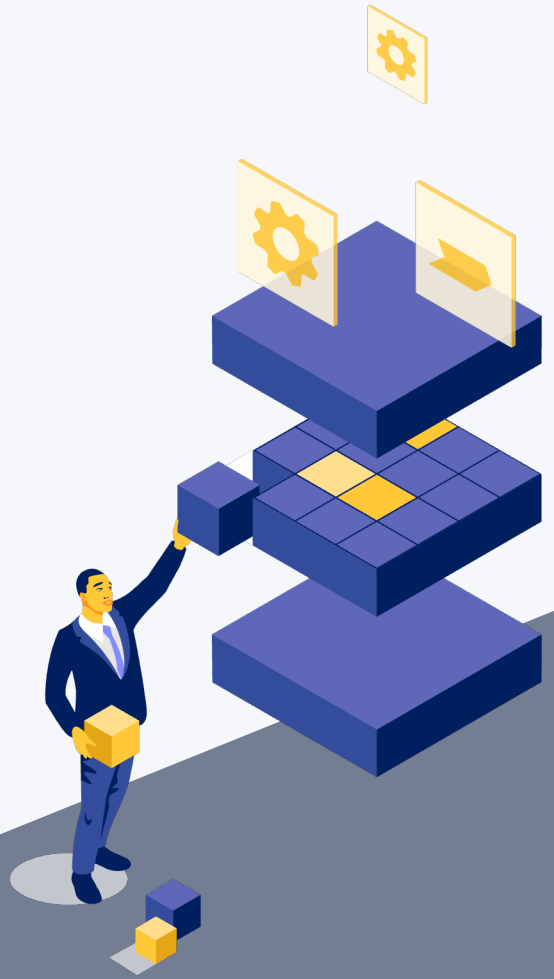
Start Blueprinting

Nailing down an app design used to take weeks. Pega GenAI Blueprint™ helps teams align on a vision in hours, accelerated by GenAI and built-in industry expertise.

Scale innovation

Expand the aperture

Modernize rapidly



Unlocking **modernization** at

MACQUARIE

The goal:

Modernize 100's of workflows, fast.

Understand the Landscape

Recon

- Business ROI Analysis
- Pega Migration Readiness

- App health assessment
- Estimation model
- Business case/ROI
- Migration blueprint
- Foundation architecture
- App refactor backlog

Get to the Modern Architecture

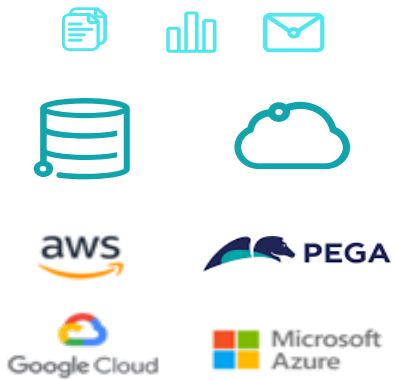
Refactor

- Lift & Improve
- Upgrade & Migrate
- Rationalize & Renew

- Remediate tech debts
- Refactor apps and processes & Pega Blueprint business objectives
- Implement modernized capabilities
- Cloud migration cookbook

Get to the Cloud & Innovate

Replatform



- Data migration
- Systems integration testing
- Performance test
- Go-live

The goal:

Modernize 100’s of workflows, fast.

The Resolving Blue Zone ‘S’ Curve
Digital Engineering

Pegasystems’ product backlog is rich with **GenAI assistance** features as we innovate on what is in Infinity’24 GA:

Pega GenAI™ Blueprint Workflow Creation
- Automatically generate stages and steps in the Case Designer from a prompt
- Humans are always in the loop

Pega GenAI™ Data Mapping and Model Creation
- Accurately map to external sources, regardless of the developer’s native language
- Self-optimization increases mapping accuracy over time

Pega GenAI™ Knowledge Buddy
- Allow Generative AI to deliver contextual instructions for users collated from internal knowledge articles and Standard Operating Procedure

Pega GenAI™ Chat with your data
- Fill data literacy gaps
- Explore data by asking simple questions in natural language with AI suggestions as starting points for analysis
