

Government Pega COE Community of Practice

Presented and Moderated by
Alex Arshavskiy
SSA Pega COE Lead, PM

Agenda

Goals of Pega COE Gov. Com. of Practice

Pega COE Measures of Success

Pega COE Core Competencies & Main Challenges

COE Leadership Best Practices

Next Steps

Pega COE Government Community of Interest Goals

- Foster a community of Pega COE leaders who can learn from each other as well as reuse assets and best practices.
- Provide a space for agencies desiring to build a COE to learn from successful COEs, how to get started, etc.
- Promote collaboration with COE leaders so we can learn from each other on topics such as innovation, governance, internal consultancy, communication strategy, new project onboarding, AI, ML, etc.

Leverage & Multiply Each Participating Agency's Competency and Knowledge

Governance Best Practices

Internal Consultancy Best Practices

Communication Best Practices

Reusable Components
(e.g. Blueprint Libraries)

Security Best Practices

Innovation (including AI and Proof of Concept Implementation) –e.g. Blueprint Libraries

SSA Pega COE Core Competencies & Responsibilities

Governance

Internal Consultancy

Communication

Reusable Components

Innovation (including AI and Proof of Concept Implementation)

SSA Pega Platform Success Criteria

Our measure of success is the value added to our external and internal customers

Time Saved

Increasing efficiency through process improvement and automation

Money Saved

Savings through faster time to market, enhanced operational insights, and more user-friendly applications

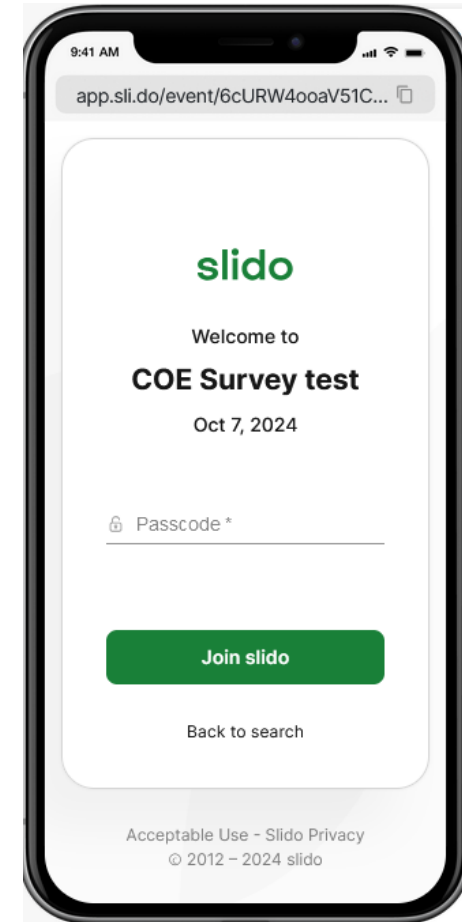

Increased Customer Satisfaction

Improving internal and external stakeholder experiences

Using your phone, scan the QR code below - it should take you directly to the online poll and log you in – if not, enter the passcode – **c5fe2h** – and **join slido.com**

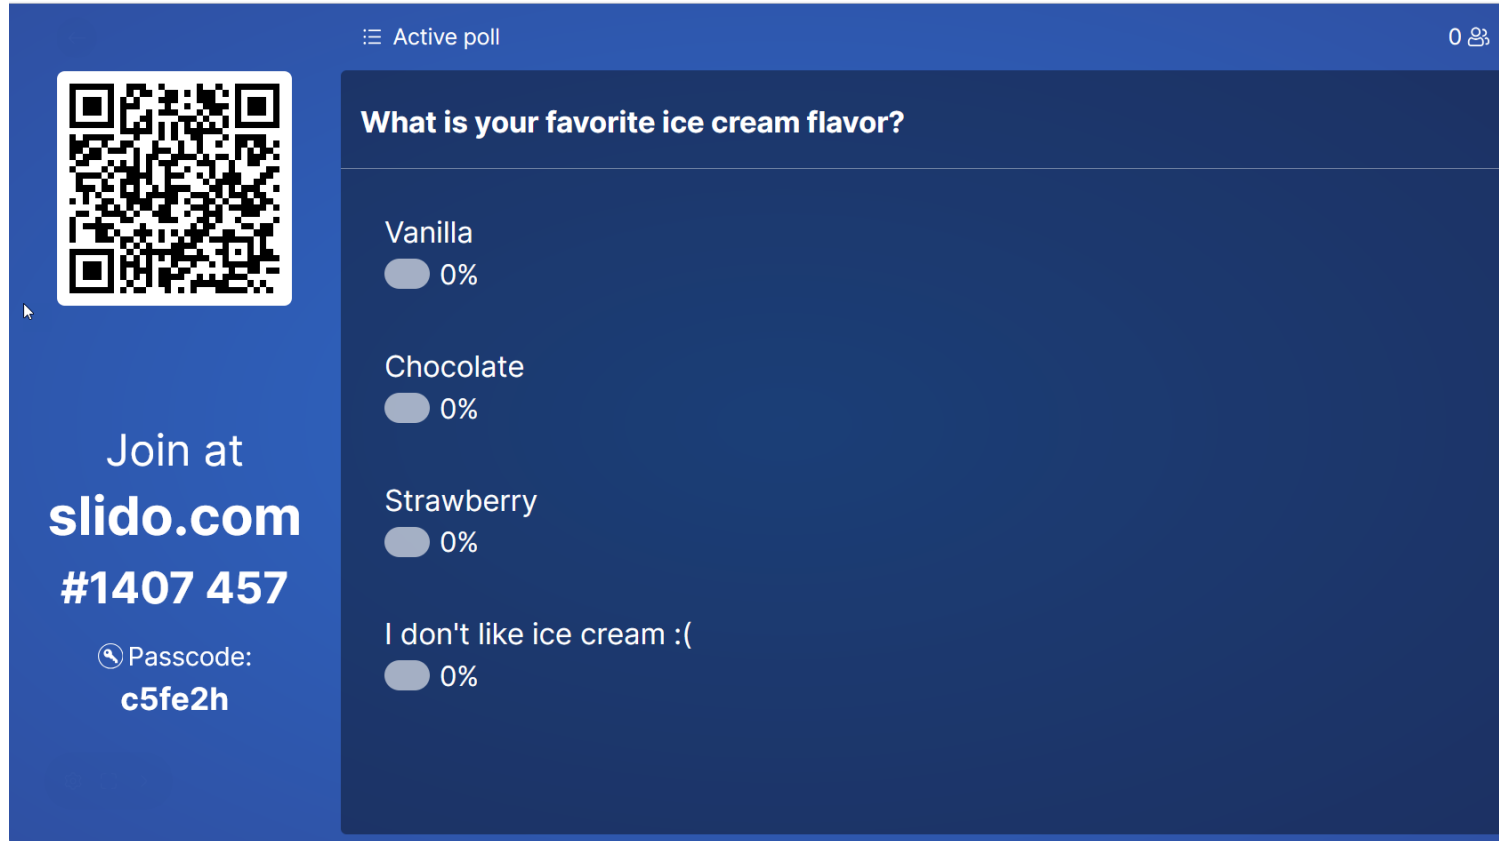

Screen view

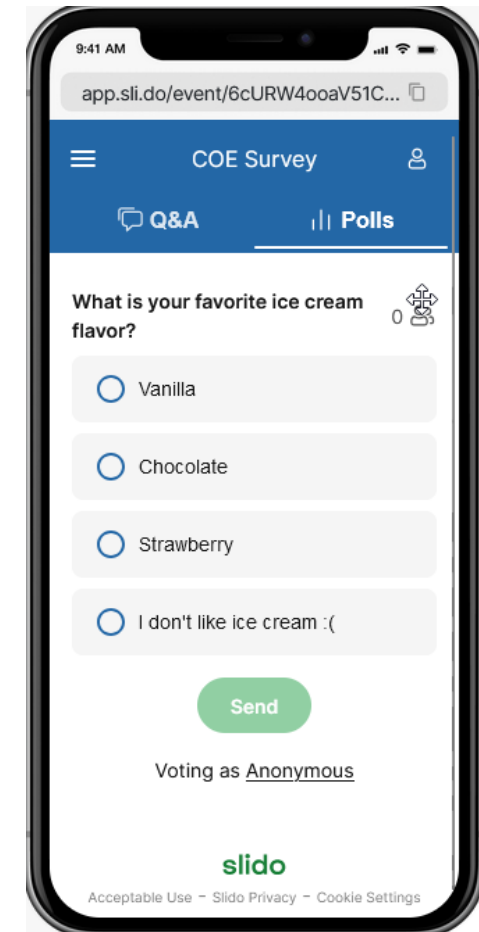

Phone view

Using your phone - select the choice and hit send
(this would be a test survey question for all attendees so they could see how the process worked)

Survey Q 1 – COE Goals

Please Check your Agency's Pega COE goals

The desktop screen view shows a blue interface for an active poll. On the left, there is a QR code and the text: "Join at **slido.com** #1407 457". Below this, it says "Passcode: c5fe2h". The main area is titled "Please check your Agency's Pega COE goals" and contains a bulleted list of options: "Saved time", "Saved money", "Increased Customer Satisfaction", and "Other".

Screen view

The mobile phone view shows the same poll interface on a smaller screen. The top navigation bar includes "COE Survey" and "Q&A" / "Polls" tabs. The poll title and options are visible, with progress bars for each option showing 0%. At the bottom, it says "Voting closed" and the "slido" logo is present.

Phone view

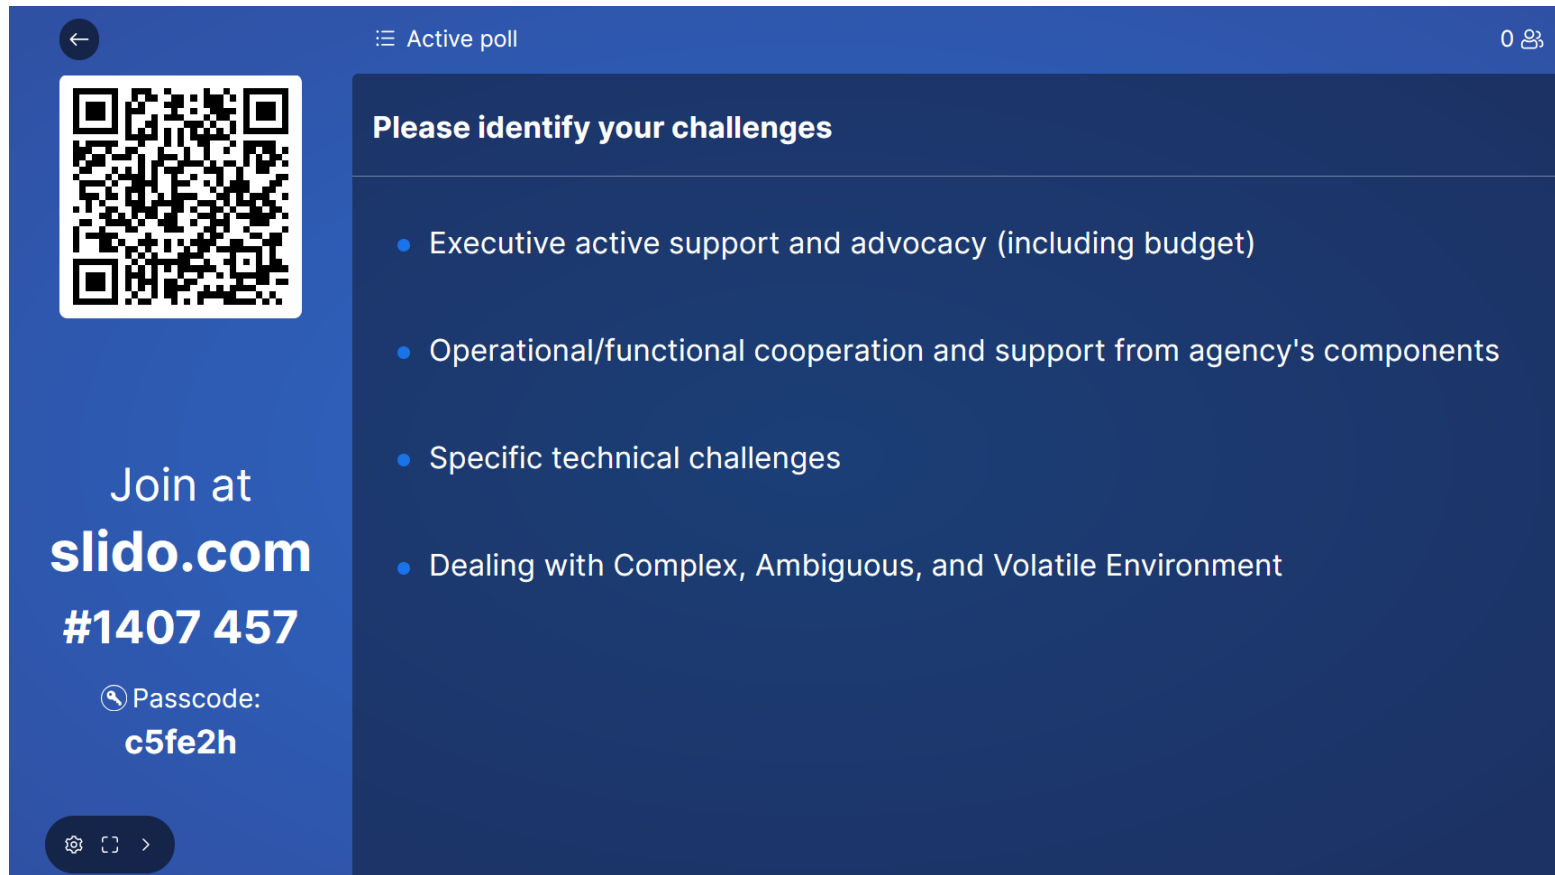

Pega COEs Main Challenges Across the Government

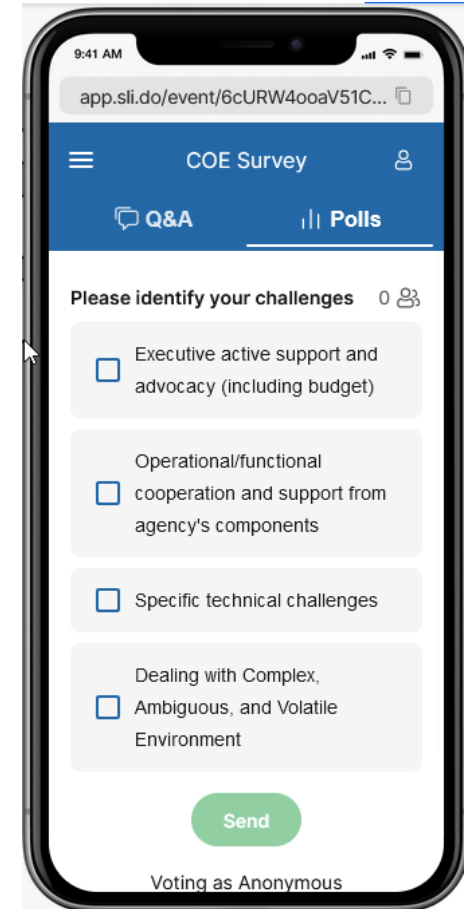

- Lack of Consistent Stakeholders' Support
 - Executive active support and advocacy (including budget)
 - Operational/functional cooperation and support from agency's components
 - Infrastructure Groups (DB Admin, Cloud Groups, Linux, etc.)
 - Application Product Teams
 - Office of Information Security
 - Acquisition Components
 - Enterprise Architecture
 - IT Investment Planning Groups
 - Other
- Specific Technical Challenges (Implementation, Integration, Deployment)
- Complex, Ambiguous, and Volatile Environment

Survey Q 2 - Challenges

Please identify your challenges

Screen view

Phone view

Solutions to the Challenges

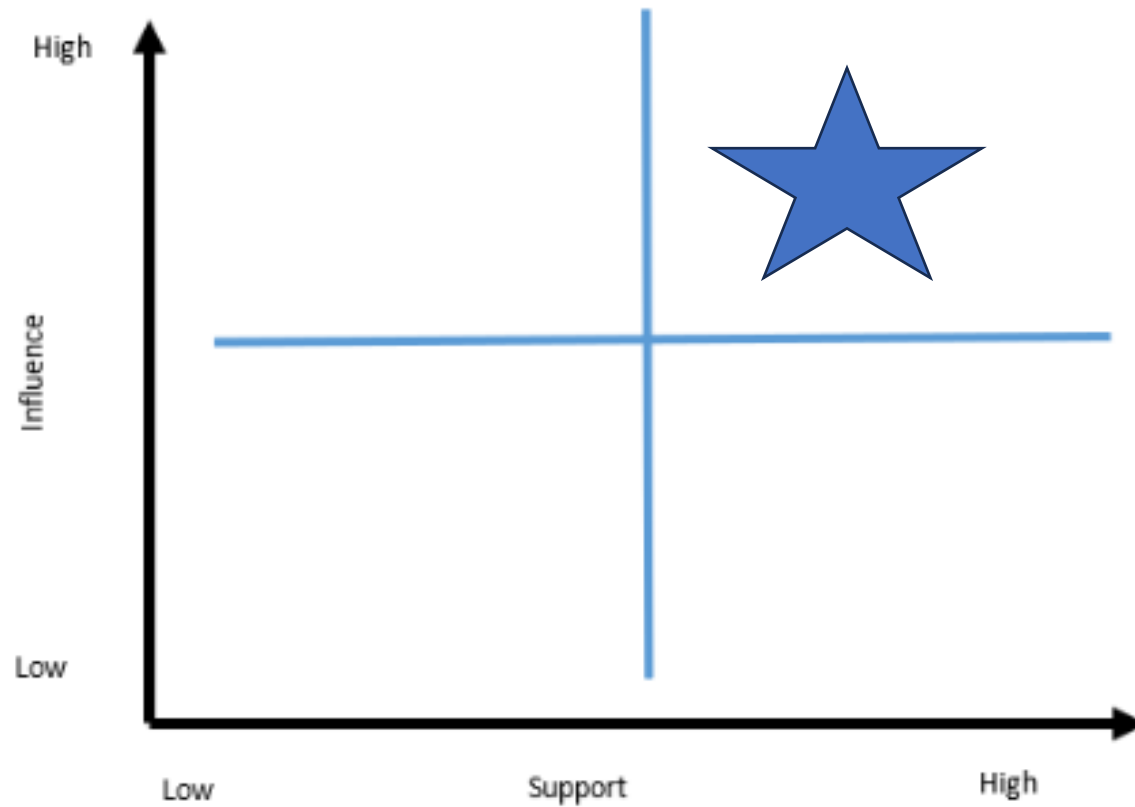

Proper identification,
classification,
influencing, and
management of
stakeholders

Changing the Pega
Platform Leadership
Approach

Proper identification,
classification,
influencing, and
management of
stakeholders

We need to focus on the
“High Influence- High
Support” quadrant.

Proper identification and classification of stakeholders will help to prepare for critical conversations.

Stakeholder Name	Position	Key Facts (e.g., years in position, work relationship to me, responsibilities, work history)	My Interferences about Their Personality/Motivation that May Impact Change

Changing the Pega Platform Leadership Approach

- To be successful, the Pega COE Leadership in the modern complex, volatile, and ambiguous environment should expand the traditional leadership framework (including transformational and transactional leadership).
- The Pega COE Leadership must do more than set strategic platform direction, govern, consult, inspire others, and drive execution.
- They also need to take on a third role of building and enabling employee networks outside the Pega COE, thereby helping employees maximize their enterprise contribution.

Pega COE Transformational Leadership Role

Align Platform Adoption to
Agency Strategic Goals

Inspire others to foster change
and focus on shaping the
Platform's mission, aligning to
the agency's strategy, and best
practices. We should motivate
others to perform beyond
expectations.

Pega COE Transactional Leadership Role

Organize and direct Pega COE members to ensure efficient strategy execution.

- Setting objective and goals
- Monitor performance
- Managing employee work
- Distributing rewards

Pega COE Critical Network Leadership Role

Establishing strong network performance by

- Building
- Aligning
- Enabling

broad networks including internal
and external to the Pega COE

Leverage & Multiply Each Participating COE's Competency and Knowledge

Governance Best Practices

Internal Consultancy Best Practices

Communication Best Practices

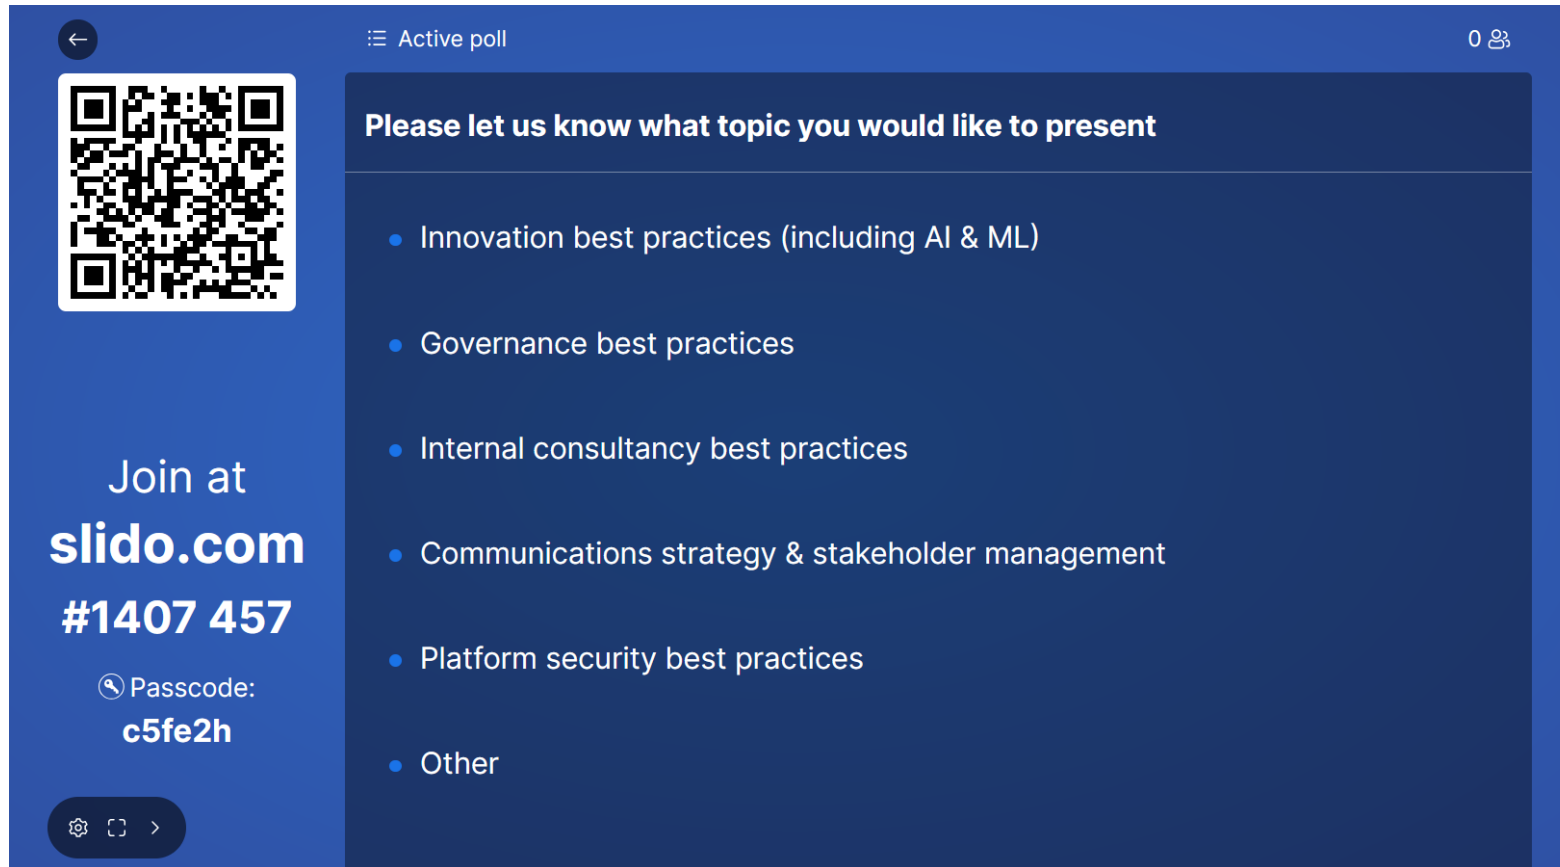

Reusable Components
(e.g. Blueprint Libraries)

Security Best Practices

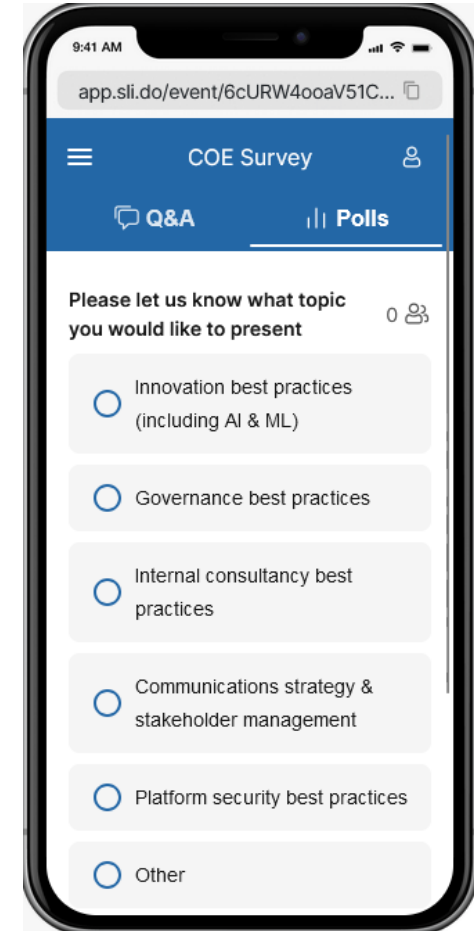

Innovation (including AI and Proof of Concept Implementation) –e.g. Blueprint Libraries
